Subject: Confirmation of Industry-Academia Collaboration

Dear Dr. Chauhan,

Greetings from Rhino Machines Pvt. Ltd.

We extend our sincere thanks for your letter and are delighted to formally acknowledge and support the Industry Supported Project Work initiative between Babu Banarasi Das Institute of Technology & Management and Rhino Machines Pvt. Ltd.

It is our privilege to collaborate on the project titled “**Recycling Plastic Waste into Eco-Friendly Silica Brick Composites: A Sustainable Solution,**” which aligns with our core values of sustainability, innovation, and circular economy practices. We appreciate your institute’s proactive approach in bridging academic learning with industrial relevance and are pleased to contribute toward the skill development of young technocrats.

Through this collaboration, Rhino Machines Pvt. Ltd. is committed to providing:

- Technical mentorship and practical insights to the students involved,
- Exposure to real-world industrial processes, sustainability applications, and product innovation,
- A platform to co-create viable solutions with long-term environmental and societal impact.

We believe that this partnership will foster knowledge exchange and promote meaningful outcomes for both academic and industrial ecosystems. We look forward to a fruitful and enduring association with Babu Banarasi Das Institute of Technology & Management.

With best regards,

Sincerely,
Manish Kothari
Managing Director
Rhino Machines Pvt. Ltd.
