Alumni Talk

Date: 18-03-2024

Title: Current Industry Trends

Location: Smart Room, Babu Banarasi Das Institute of Technology & Management, Lucknow

Speaker: Mr Rahul Kumar Yadav

Audience: 3rd & 4th Year Students

Introduction

The alumni talk featuring Rahul Kumar Yadav, a Senior Software Developer at TCS-Mumbai, provided valuable insights into current industry trends impacting the workforce and future career opportunities. The session aimed to bridge the gap between academic knowledge and real-world applications.

Key Highlights

1. **Digital Transformation**
    - **Emphasis on AI and Automation**: Rahul Kumar Yadav discussed how industries are increasingly adopting AI and automation to improve efficiency and decision-making. They highlighted specific examples from their field, showcasing innovations that enhance productivity.
    - **Remote Work Dynamics**: The speaker elaborated on the shift towards remote and hybrid work models, discussing the technologies facilitating this transition and the need for companies to adapt their management strategies.
2. **Sustainability and Corporate Responsibility**
    - **Growing Importance of Sustainability**: The talk emphasized the rise of sustainability as a core business principle. He shared examples of organizations implementing eco-friendly practices and the positive impact on brand loyalty and consumer trust.
