Orientation Program

Session : 2026-27

Date: 02 September 2026

Department: Information Technology/ REIMAGINE Club

Coordinator:

Ms. Garima Jain

Date of Submission:

07-September -2026

1. INTRODUCTION

1.1 PURPOSE

The Department of Information Technology, BBDITM, Lucknow, organized an **Orientation Programme for Second-Year Students on 2nd September 2026**. The programme was designed to familiarize students with the academic structure, departmental activities, academic guidelines, outcome-based education, project evaluation, mentoring, training and placement opportunities, alumni engagement, and student activities.

The orientation programme provided students with an opportunity to interact with faculty members and institutional authorities and understand the expectations associated with their academic journey.

The programme enabled students to:

- Become familiar with the Department of Information Technology and its faculty members.
- Understand the academic structure and Outcome Based Education (OBE) framework.
- Learn about attendance, examination, discipline, and academic guidelines.
- Understand the project allotment and evaluation process.
- Gain clarity regarding the internal evaluation process.
- Understand the Mentor-Mentee system and its importance.
- Become aware of Training and Placement activities and industry requirements.
- Understand the importance of alumni interaction and student feedback.
- Participate in an interactive ice-breaking and fun activity.
- Build a positive connection with faculty members and fellow students.

The programme provided a comprehensive orientation to help students begin the academic year with better awareness and preparedness.

1.2 TARGET AUDIENCE

The Orientation Programme was primarily organized for **2nd year students of the Department of Information Technology**.

The orientation focused on providing students with essential information related to:

- Academic structure and departmental functioning
- Outcome Based Education
- Attendance and examination guidelines
- Internal evaluation
- Project allotment and evaluation
- Mentor-Mentee activities
- Training and Placement
- Industry exposure
- Alumni engagement
- Student feedback

- Co-curricular and student engagement activities

The programme also aimed to create awareness among students regarding their academic responsibilities and opportunities for overall development.

---

2. OBJECTIVES

The major objectives of the Orientation Programme were as follows:

2.1 ACADEMIC ORIENTATION

- To familiarize students with the academic structure of the Department of Information Technology.
- To introduce students to faculty members and their respective academic responsibilities.
- To explain academic expectations and departmental practices.
- To create awareness regarding attendance, examinations, discipline, and academic conduct.
- To help students understand the internal evaluation process.

2.2 AWARENESS OF OUTCOME BASED EDUCATION

- To introduce students to the concept of Outcome Based Education.
- To help students understand the importance of Course Outcomes and Programme Outcomes.
- To create awareness about the relationship between classroom learning and expected academic outcomes.
- To encourage students to take an outcome-oriented approach towards their studies.

2.3 PROJECT AND PRACTICAL LEARNING

- To familiarize students with the project allotment process.
- To explain the stages involved in project evaluation.
- To encourage students to develop practical and problem-solving skills.
- To motivate students to undertake meaningful and innovative projects.

2.4 MENTORING AND STUDENT SUPPORT

- To introduce students to the Mentor-Mentee process.
- To explain how mentoring can support students in their academic and personal development.
- To encourage students to communicate their academic concerns with their mentors.
- To strengthen faculty-student interaction.

2.5 TRAINING AND PLACEMENT AWARENESS

- To create early awareness regarding Training and Placement activities.
- To introduce students to industry expectations.

- To emphasize the importance of developing technical and soft skills.
- To encourage students to prepare for future internships and placement opportunities.

2.6 ALUMNI AND FEEDBACK

- To highlight the importance of alumni engagement.
- To make students aware of the role alumni can play in career guidance and professional networking.
- To encourage students to provide constructive feedback.
- To promote continuous improvement in departmental activities.

2.7 STUDENT ENGAGEMENT

- To provide students with an opportunity to interact with their peers and faculty members.
- To create a welcoming and positive academic environment.
- To encourage participation in co-curricular and extracurricular activities.
- To develop communication, confidence, teamwork, and interpersonal skills.

---

b) PARTICIPANTS

The programme was organized for **second-year students of the Department of Information Technology.**

Number of Participants: 25

The students actively participated in the orientation sessions and interacted with faculty members. Their participation reflected their interest in understanding the academic and professional opportunities available during the second year of the programme.

Faculty members and departmental representatives were also present to guide the students and address their queries.

---

4. OUTCOMES

The Orientation Programme achieved the following outcomes:

- Students became familiar with the Department of Information Technology and faculty members.
- Students gained awareness of the academic structure and departmental expectations.
- Students developed an understanding of Outcome Based Education.
- Students gained clarity regarding attendance, examination, and discipline guidelines.
- Students understood the project allotment and evaluation process.
- Students became aware of the internal evaluation system.
- Students understood the Mentor-Mentee process and its significance.
- Students received information regarding Training and Placement and industry expectations.
- Students understood the importance of alumni engagement and constructive feedback.
- Students participated in an interactive ice-breaking session that encouraged peer interaction.

---

5. CONCLUSION

5.1 PROGRAMME SUCCESS

The **Orientation Programme for Second-Year Students**, organized by the Department of Information Technology, BBDITM, on **2nd September 2026**, was successfully conducted.

The programme provided students with valuable guidance regarding academics, technical skills, projects, internships, career opportunities, departmental activities, and professional development.

5.2 ALIGNMENT WITH OBJECTIVES

The programme successfully addressed its intended objectives by providing:

- Academic orientation
- Technical skill awareness
- Project and practical learning guidance
- Internship and career awareness
- Student engagement opportunities
- Faculty-student interaction
- Professional development guidance

The programme encouraged students to become more proactive and responsible towards their academic and professional growth.

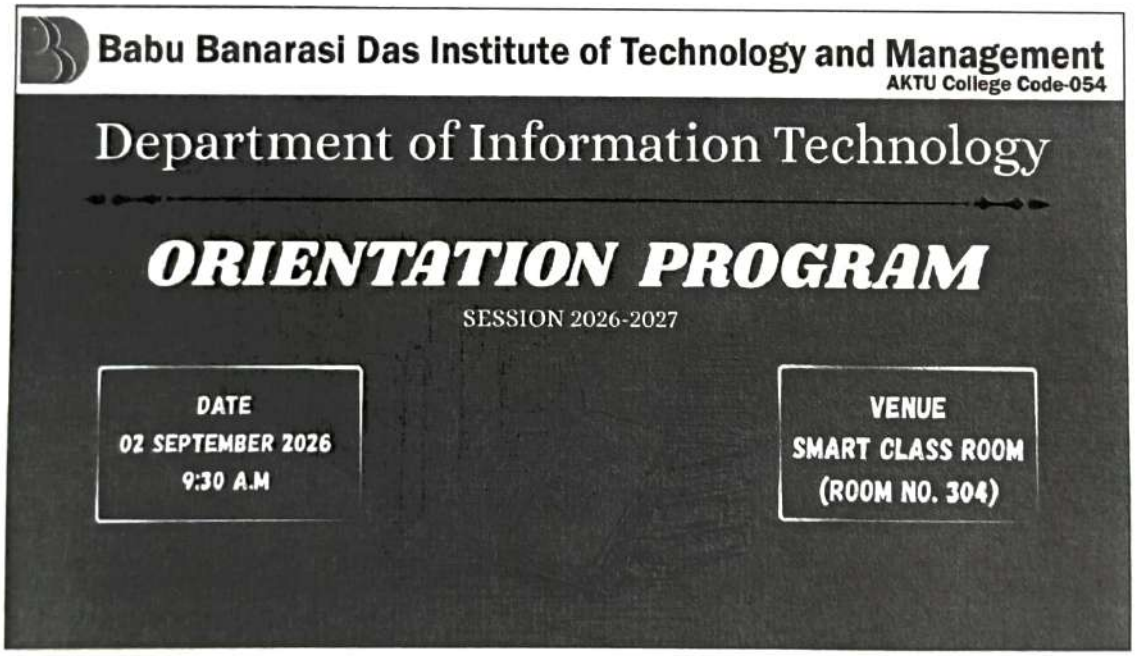

5.3 RECOMMENDATIONS FOR FUTURE PROGRAMMES

Based on the outcomes of the orientation programme, the following activities may be included in future programmes:

- Technical skill-development workshops
- Coding and problem-solving sessions
- Industry expert interaction
- Internship awareness sessions
- Career counselling sessions
- Resume-building workshops
- Mock interviews and aptitude sessions
- Hackathons and project competitions
- Regular mentoring and career guidance sessions
- More industry visits and expert lectures

The orientation programme served as an effective platform for **guiding second-year students, strengthening their academic foundation, developing industry awareness, and preparing them for future internships and career opportunities**.
